### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney of record Victor Johnson on Monday, November 29, 2004.

The application has been amended as follows:

•Page 1, line 1 of the specification, before "Technical Field" inserted --*The present application is a Continuation and claims priority under 35 U.S.C. §120 to United States Patent Application Number 09/919,182 filed July 30, 2001 now Abandoned.* --

•Claim 32, line 4, changed, "said screw pocket" to --*said pocket*--

•Claim 54, line 2, following the words "said end wall", deleted --, *said pocket being dimensioned to receive an enlarged head of a fastener*;

•Claim 55, line 5, changed "said screw pocket" to --*said pocket*--

The following is an examiner's statement of reasons for allowance: The art of record, considered alone or in combination, neither anticipates nor renders obvious a joiner member with fastener pocket wherein a diameter of a fastener shank portion is sufficiently greater than a diameter of a bore to frictionally retain said fastener member in said bore as a result of an interference fit with said bore. Additionally, the prior art fails to anticipate or render obvious a fastener receiving bore with an elongated transverse cross section, said bore having a longitudinal axis, a large dimension oriented in one plan and substantially perpendicular to said

longitudinal axis and a small dimension substantially perpendicular to said large dimension and oriented to extend substantially in another plane and substantially perpendicular to said longitudinal axis; in combination with the rest of the claimed limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
